C. The YA-12 mentioned under "A", 5, serial 4 above, had in the place of seats at the back, a large spoked wheel with five or six shovels and behind this wheel, across the width of the vehicle, a solid levelling scoop. This leveller was held upwards, and is probably lowered when working. It was approximately 30 cms. thick at the back and tapered towards the edge. The wheel and scoop were approximately the height of the normal driver's cabin.
